## **ABSTRACT**

"Indeed, the new Middle East is emerging, an Islamic Middle East not as the enemies had imagined. After the upheavals and turmoil in Syria and Iraq, now as the holy narrations had foretold, Yemen, the land of Oweis al-Qarni, a land where its people have been practicing jihad since childhood, are devoted to the love of jihad for the sake of Allah, and are always prepared for it. It has initiated a comprehensive uprising, even though the Wahhabi devils in their disturbed sleep intend to bribe and persuade the mercenary leaders of the region and their companions to extinguish the flames of this sacred revolution. But the prophecies and realities of the region show that this is not just an illusion, and soon the waves of this sacred revolution will engulf the Arabian Peninsula and the surrounding countries.

## **Introduction**

Indeed, the Shia have risen in Yemen, and their revolutionary leaders, who, on the one hand, have gained increased strength in the past months following the death of Abdullah, the King of Saudi Arabia, and on the other hand, are well aware of their honorable and historical role in the global Islamic awakening, are more powerful than to be intimidated and coerced by cowardly and submissive threats from their enemies, and to vacate the field. The pressure and warmongering of the enemies will only expedite the fulfillment of the promises of the narrations of the era of reappearance".

The glorious victory of the Yemeni revolution will be an example and a good model for the nations whose revolutions have been confiscated and diverted after the Islamic awakening. We can expect to see the beginning and continuation of these revolutions to achieve victory like in Yemen.

Another good news of the Yemeni revolution is its strong anti-israel and anti-arrogance side, and God willing, with its rapid expansion, the encirclement of the usurping Zionists will become tighter and tighter until the united armies of the Islamic resistance axis and the masses of people come together to destroy the center. Sedition and corruption in the world of Islam and the freedom of Holy Quds Sharif should be on their way to that holy land.

To better understand the current developments in Yemen, we will take a look at the narrations of the emergence of Imam Mahdi and analyze the events of the past few years in Yemen:

### **Yemen and its role during the advent of Imam Mahdi**

Predictions have been made about the Islamic revolution and the foundation for the emergence of Imam Mahdi in Yemen, some of which are true, which clarifies the certainty of the occurrence of this revolution and makes it a guiding and foundational project. It describes the rise of Hazrat Mahdi and his helper.. Even some of the narrations of the Yemeni Islamic Revolution consider it the most guiding flag at the time of its emergence and emphasize the necessity of helping it. He emphasizes that in helping the Islamic Revolution of Iran, but more than that, and it coincides with the departure of a person named Sufyan in the month of Rajab, that is, a few months before the appearance of Imam Mahdi and introduces its capital as Sana'a. .

But the name of its leader is known in the traditions as Yemeni, and one tradition mentions his name as Hasan or Hussain, and he is a descendant of Zayd Ibn Ali, peace be upon him, but this tradition can be checked for its veracity.

We will review some predictions in this case together

Before the rise of Imam Mahdi, five signs are sure to occur: Yemeni, Sufani, heavenly cry, killing of the soul of Zakiyah and sinking into the desert.

And he also said:

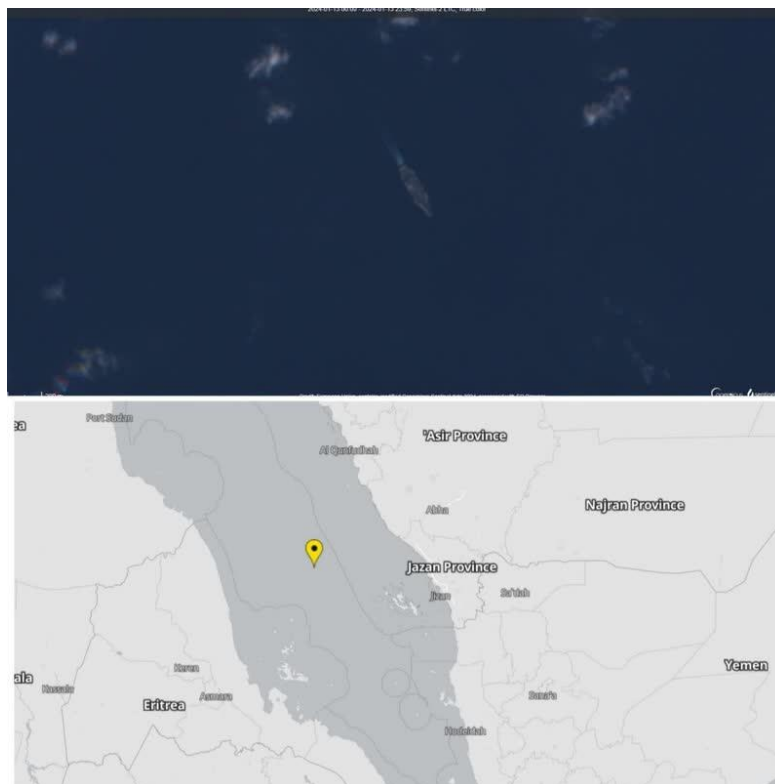

The departure of Sufani, Yemeni, and Khorasani in one year, one month, and one day, and their sequence will be like a string of beads. Distress and hardships arise from all sides, and for those who oppose and enmity with them, there is no better guide among the doors than the flag of Yemen, because the door is the truth and it leads you to your owner. invites When a Yemeni revolts, it is forbidden to sell weapons to the people. And when he comes out, rush to him because his door is the door of guidance. And it is not permissible for any Muslim to turn away from him. And if anyone does that, he will be from the people of the fire, because he invites people to the truth and the straight path.

## Yemeni actions

The details of the Yemeni uprising are not mentioned in the narrations, but some of his actions are mentioned; including the call to truth, the conflict with Sufani and the conquest of Rome and Constantinople.

call to the right; Based on the prediction of Imam Baqir , the Yemeni uprising has been recognized as right and the necessity of joining his uprising has been emphasized. Some writers have interpreted the intention of rising to the truth as a call to Imamate. In a narration, a person named Mansour is mentioned who is a helper of Hazrat Mahdi and has 70 thousand supporters.

conflict with Sufani; Some narrations report the conflict between Yemeni and Sufani. Narratives differ about the outcome of Yemeni war with Sufani; Some announce the victory and others announce the defeat of Yemeni. In justifying the difference between these narrations, some authors have said that each of the narrations tells about the conflict between the two in a certain time and place. There is doubt about the authenticity of the document of these narrations. Based on the narration that Ibn Hammad, a Sunni scholar, narrated Yemeni Kurd joins Imam Mahdi in Medina, Sufyan sends an army to Medina, but both of them leave Medina towards Mecca. Sufyan's army follows them towards Mecca and sinks into the ground in a place called Bidah.
